Institute/Department: Plant Evolutionary Ecology research group of Prof. Meret Huber at the Institute of Organismic and Molecular Evolution

Hours/Week: 4

Degree: none

Contact person at the institute: Alexandra Chávez

E-mail: chavezaa@uni-mainz.de

Duration: 2 months with the possibility of extension

End of application: November 1st 2023

The Plant Evolutionary Ecology research group of Prof. Meret Huber at the Institute of Organismic and Molecular Evolution is looking for a student assistant without a bachelor’s degree (SHK) to support research into plant adaptation processes (https://plant-evolutionary-ecology.uni-mainz.de/research/).

Tasks:
Preparation of growth media, material organization and smaller tasks as part of the ongoing research projects.

Qualifications:
Dedication and thoroughness. English language knowledge.

Information about the position:
Earliest start October 16th, 2023. Contract duration, 2 months with the possibility of extension for a longer period. Part-time employment with 4 hours a week. The place of work is the Nat. und Med. building (JohannJoachim-Becher-Weg 7).

Application:
If you are interested, please send a short application (cover letter, short curriculum vitae in tabular form) by email to: Alexandra Chávez chavezaa@uni-mainz.de.

SHK - Studentische Hilfskraft ohne Bachelorabschluss: Anyone who is enrolled at a university, studies at least in the 1st semester, and does not yet have a professional university degree in the subject assigned to their auxiliary activity.
